(May 16, 2022/PEORIA, ILLINOIS) – Peoria, Illinois-based OSF HealthCare is hosting a virtual job fair to hire certified nursing assistants (CNAs), patient care technicians (PCTs), digital health care assistants, registered nurses (RNs), advanced practice providers (APPs), and physicians for its OSF OnCall Digital Hospital. The “digital hospital at home” model provides hospital-level acute care services 24/7 with a combination of in-person care and a digital command center that provides coordination, navigation, and continuity of care throughout the patient’s journey.

The Virtual Career Fair for job openings is from **noon to 2 p.m. on Thursday, May 19**. Applicants must pre-register using this link: [OSF HealthCare Digital Hospital Event \(brazenconnect.com\)](https://brazenconnect.com).

Those hired as an OSF Mission Partner (employee) will work at the [OSF OnCall building](#) at 330 SW Adams Street in downtown Peoria. The positions are unique in that they allow individuals to provide care virtually.

Manager of Digital Care Melissa Meier, MSN, RN says, “The OSF OnCall Digital Hospital is the perfect mix of both in-person care and 24/7 telehealth connectivity that allows patients to remain in the comfort of their own home.”

*“This provides a perfect opportunity for RNs, CNAs, and APPs who may be looking to branch into the field of telehealth, but who are not ready to completely give up direct patient care. Care team members will provide support in the patient’s home through field visits, in addition to telehealth video visits throughout the day.”-Melissa Meier manager of Digital Care, OSF OnCall*

The online event will allow applicants to talk via phone, tablet or computer with a member of the OSF hiring team; providing an option that breaks through conventional barriers so those who are interested can immediately ask questions to learn if the position and OSF HealthCare is a good fit. The connection could lead to a longer encounter, with an opportunity to be hired on the spot, pending final review.
