(Peoria, Ill. | November 14, 2022) — Illinois-based OSF HealthCare and Imaging Centers of Illinois, LLC., have formed a partnership to open a modern retail imaging center that will serve Sterling-Rock Falls and the surrounding communities. The center will offer low-cost imaging services that are easy to access in a modern, streamlined environment.

The OnCall Imaging Center will be 7,800 square feet and located in an existing building at 1609 1st Avenue. It will provide convenient parking and easy access from Highway 30 and state Route 40.

The free-standing OnCall Imaging Center will be a joint venture between the two organizations that offers non-invasive advanced imaging MRI, CT scans, ultrasounds, DEXA scans for bone density, and mammography. OnCall Imaging will offer convenient self-scheduling, same day access, walk-in appointments and a truly patient centered experience.

The partnership brings together clinical excellence, extensive imaging experience and freestanding imaging center operations experience. "We're excited to offer physicians, advanced practice providers and patients a full-range of high-quality, timely diagnostic imaging services that are cost effective and easily accessible," says Jennifer Junis, senior vice president of OSF OnCall.

The new center is scheduled to open in the spring of 2023.
