(Peoria, Ill. | December 14, 2022) – The OSF HealthCare Foundation based in Peoria, Illinois, has been included in the Association for Healthcare Philanthropy (AHP) 2022 High Performer’s list for the third straight year.

The OSF Foundation credits the AHP recognition directly to the support and commitment of its donors, saying it is blessed with generous donors who are passionate about making a difference in the health and wellness of the communities served by OSF HealthCare.

“We are honored that OSF HealthCare Foundation was recognized as a high performer by the Association for HealthCare Philanthropy,” said Tom Hammerton, President, OSF HealthCare Foundation. “I am proud of our team who works extremely hard to create relationships and raise important funds, honoring the wishes of the donors to make a profound impact on the many communities we serve.”

Overall high performers represent AHP’s traditional criteria of the top 25% in net production revenue across all respondents in the 2022 Report on Giving. In FY 2021, these high performers raised more than \$23.6 million in the U.S. and more than \$20.1 million in Canada.

AHP recognized U.S. and Canadian philanthropic organizations as high-performing fundraisers in the healthcare industry for fiscal year 2021. These organizations are primarily foundations affiliated with nonprofit hospitals or health systems that were surveyed for AHP’s 2022 Report on Giving, which provides key industry benchmarks for healthcare fundraisers.
