

Soundbite Script – OSF Saint Anthony Medical Center Gets COVID Vaccine

Kristi Polfliet, RN, Emergency Department

“It’s a good step for all the Mission Partners, quite honestly. It’s an exciting day for all of us. We’ve been waiting for it for a while. It’s an honor to be the first, but it’s the first of many.”

Kristi Polfliet, RN, Emergency Department

“It’s been really challenging. It really has. It’s been unprecedented. It’s the word we keep using. We’ve had to learn to adapt and adjust and think on the fly. Overall, it’s been pretty successful but it’s been really challenging.”

Phyllis Hernandez, Laboratory Assistant, OSF Saint Anthony Medical Center

“It’s been tough. It’s a huge workload, but every day is a new day. We have learned to overcome and go with the flow. And do better. We do better every day.”

Phyllis Hernandez, Laboratory Assistant, OSF Saint Anthony Medical Center

“It’s scary. It’s devastating what it’s done everywhere. My hope is we can get a grip and get back to the way things used to be.”
