

Sister Carol Pacini, L.C.M., Region Leader – Little Company of Mary

In the name Little Company of Mary, “company” has a religious meaning, not a business connotation :36

Our Foundress always wanted our name to be the Little Company of Mary because the name comes from that group of women with John who stood at the foot of the cross of her dying son. So it has significance for us even as we move into our ministries and especially our ministry with OSF because we fit together very well I believe and it's exciting to think about how Little Company of Mary here in Evergreen Park will become a part of the OSF family.

It was important to the Sisters to keep the Little Company name intact. OSF is a good fit :34

We are known or were known as the baby hospital on the south side. Little Company of Mary has been here for almost 90 years so this is a momentous time for us celebrating 90 years as an independent Catholic hospital recognizing that as we age and mature that we want this facility this healthcare organization to continue into the future and OSF is just a good fit for us.
